FAX: 202.624.5955 • TEL: 800.498.2071

## Reminder: EHDI Needs More Sponsors

Dear Interested Consumer,

Thank you so much for your support as an ASHA grassroots advocate. If you have already taken action on this alert, please forward it to a friend. However, more EHDI co-sponsors are needed when the Senate plans to reconvene in mid-November. **Please [TAKE ACTION](#) today!**

**[CLICK HERE](#) to contact your U.S. Senators and urge them to co-sponsor the Early Hearing Detection and Intervention (EHDI) Act of 2007 (S.1069).** This important legislation would reauthorize EHDI grants to states, which fund state-wide programs that screen newborns for hearing loss before they leave the hospital. Additionally, the legislation would expand states' ability to enroll identified babies in early intervention programs.

**Please [TAKE ACTION](#) today!** Thank you for your support.

Sincerely,

Katie Bromley  
Director, Grassroots and Congressional Advocacy
